

LAND-LOCKED-LAKES

To enhance water safety awareness and practices in landlocked areas through community education and engagement, ultimately making out local waterways safer.

Our Mission

At Land-Locked-Lakes, our mission is to cultivate a culture of safe water practices in landlocked areas where recreational opportunities on the water are limited. We recognize the critical need to bridge the knowledge gap and promote water safety awareness in these communities.

Through the power of short, engaging social media videos, informative signage at local waterways, and the cornerstone of our efforts, community events, we are dedicated to fostering a deep understanding of water safety principles. Our commitment to monthly meetings, led by experienced water safety professionals, ensures a continual and comprehensive education for our community.

By bringing the community together through our events and initiatives, we aim to create a sense of unity and shared responsibility, encouraging all residents to embrace and adhere to safe water practices. Land-Locked-Lakes is committed to making our local waters safer, one informed and connected community member at a time.
